News Release

BROADBAND LEARNING CORPORATION ENTERS INTO AGREEMENT WITH LOGIC INNOVATIONS INC.

TSX VENTURE EXCHANGE: BLC

FOR IMMEDIATE RELEASE

SALT LAKE CITY, Utah – May 16, 2006 - Broadband Learning Corporation (“Broadband Learning”) (TSX V: BLC), participant in the rapidly expanding distance learning market, is pleased to announce that it has entered into an agreement with Logic Innovations of San Diego, California (a subsidiary of SYS Technologies) to purchase the Logic Innovations Content Distribution System (CDS) to enable the delivery of Broadband University professional certification courses to institutional customers. The agreement calls for immediate delivery of a CDS with an MPEG-4 encoder, content management system, network management system, IP encapsulator, and 100 satellite receivers. The initial purchase is valued at \$150,000. Broadband Learning current estimates anticipate the purchase of more than US\$7,000,000 in Logic Innovations products to be used in the next 3 year period. These purchase arrangements relate to the 4,000 site distance learning deployment announced on March 21, 2006, and no specific purchase liabilities will be incurred by Broadband learning under the agreement with Logic Innovations until specific purchase orders have been received under the 4,000 site deployment.

Edwin Giles, CEO of Broadband Learning Corporation, stated “I have long admired Logic Innovations’ engineering expertise. Their platform allows us to deliver our professional certification courses, live video and video on demand to the desktop in corporate environments where there may be from 10 to 10,000 users. Simultaneously, we can deliver digital signage and patron entertainment utilizing the same platform. Pairing Logic Innovation products with our Broadband University™ courseware delivery system has created a formidable product that cuts the cost of enterprise professional education platforms by tens of thousands of dollars - while improving the end user experience and the reporting and verification capabilities of our clients.”

Charles Mrdjenovich, President of Logic Innovations, said “We are very pleased to be a part of Broadband Learning’s comprehensive distance learning solution. This is a market that we have targeted as a significant growth opportunity, and our selection by Broadband Learning validates our position as a technology leader in the delivery of content distribution systems to large corporations and institutions. We look forward to a long and mutually beneficial relationship with Broadband Learning.”

About Logic Innovations/SYS Technologies

Logic Innovations is a subsidiary of SYS Technologies (AMEX: [SYS](#)). SYS Technologies is a provider of information connectivity solutions that capture, analyze and present real-time information to decision makers. Using interoperable communications software, sensors, wireless networks, decision-support tools and Net-centric technologies, its technical experts enhance
